Software License Agreement

for Driver Interfaces*

* Including BTIDriver™ and RPC Driver Interfaces for Windows®, Linux®, and Solaris® Operating Systems
(BTIDriver is trademark of Astronics AES Corp. Windows is a registered trademark of Microsoft Corporation.
Linux is a registered trademark of Linus Torvalds. Solaris is a registered trademark of Oracle America, Inc.)

This document (Agreement) is a legal agreement between you, the end user (LICENSEE), and Astronics Advanced Electronic Systems Corp. (AES) for the AES software product(s) identified above (SOFTWARE), which includes associated media, printed materials, and any online or electronic documentation. The term "SOFTWARE" shall also apply both individually and collectively to Source and Object files provided by AES. The term "Source file" shall mean any human-readable files (e.g., with extension .c or .h), and the term "Object files" shall apply to any compiled files (e.g., with extension .o or .so). By installing, copying, or otherwise using the SOFTWARE, you are agreeing to become bound by the terms of this Agreement, which includes the software license and the AES General Terms and Conditions, unless otherwise mutually agreed by written contract in effect when the product was obtained from AES (e.g., at the time of purchase).

If you do not agree to the terms of this Agreement, promptly return the product to AES. The amount you paid for unused product will be refunded.

OWNERSHIP OF THE SOFTWARE: The SOFTWARE and accompanying documentation are owned by AES (or its third party suppliers) and are protected by United States copyright laws. AES (or its third party suppliers) owns all copyright, trade secret, and other proprietary rights in the SOFTWARE. This license confers no title or ownership in the SOFTWARE and is not a sale of any rights in the SOFTWARE.

LICENSE GRANT: AES grants the LICENSEE a non-exclusive license to Use the SOFTWARE as prescribed below. The term "Use" shall mean installing, loading, executing, copying, or otherwise using the SOFTWARE. Applications developed using the SOFTWARE and incorporating any part of the Source or Object code from the SOFTWARE are considered Use of the SOFTWARE. LICENSEE agrees to Use the SOFTWARE only in conjunction with or the development of an application for the associated AES hardware product. In addition, the LICENSEE may Use the SOFTWARE to develop custom software applications and may freely redistribute the Object files with the custom application.

REDISTRIBUTION: LICENSEE agrees (a) to distribute only the Object files; (b) to only distribute the Object files in conjunction with a custom application for an AES hardware product; (c) to include with the distributed SOFTWARE (i) a valid copyright notice, and (ii) a notice restricting the Use and redistribution of the SOFTWARE to Use and redistribution with the LICENSEE's custom application; (d) to indemnify, hold harmless, and defend AES and its suppliers from and against any claims or lawsuits, including attorneys' fees, that arise or result from the Use or distribution of LICENSEE's software application; and (e) to assure that any export of the SOFTWARE and the associated AES hardware and LICENSEE's custom application is not in violation of any applicable U.S. regulation or statute.

LIMITATIONS: LICENSEE may not reverse engineer, decompile, or disassemble any portion of the SOFTWARE. LICENSEE agrees to only Use the SOFTWARE in conjunction with an AES hardware product. Any upgrade to the SOFTWARE is considered to be a part of the original SOFTWARE package and may be used only in connection with an AES hardware product.

COPIES: LICENSEE may make copies of the SOFTWARE as required for archival or back-up purposes. The LICENSEE shall furnish all copies with proprietary marks and symbols identical to those affixed to the SOFTWARE. All archival and back-up copies of the SOFTWARE are subject to the provisions of this Agreement.

U.S. GOVERNMENT RIGHTS: The SOFTWARE provided hereunder is "commercial computer software" as that term is defined in 48 CFR 2.101 and in DFARS 252.227-7014 (48 CFR 252.227-7014) Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation (Feb. 2014). Consistent with 48 CFR 12.212 and 48 CFR 227.7202-1 through 227.7202-4, the SOFTWARE and related computer software documentation is provided with the commercial license rights and restrictions described herein.

CONFIDENTIAL INFORMATION: All information, whether in printable or computer readable form, marked as confidential or proprietary to AES (e.g., AES TECHNOLOGY CONFIDENTIAL) may only be used as additionally authorized by AES in a separate written confidentiality agreement.

TERMINATION: Without prejudice to any other rights, AES may terminate this Agreement if LICENSEE fails to comply with the terms and conditions set forth herein. In such event, LICENSEE agrees to destroy all copies of the SOFTWARE and all its component parts.

MISCELLANEOUS: This Agreement is governed by the laws of the State of Washington, excluding the conflict of laws provisions thereof.
